This time it will be held again at the Yonezawa Campus. Students attending universities and high schools in Yonezawa City, and Yamadai faculty members are welcome to participate. If you would like to participate, please apply using the form below. We will get back to you with an overview of the event.

The only condition for participation is respect for the personality and privacy of each participant. You are free to enter and leave the venue anytime. Professor Hirono Ikeda (Faculty of Humanities and Social Sciences, Yamagata University), who presides over this project, will also participate.

The event will take place mainly in Japanese, but please feel free to participate. We will do our best to accommodate you.
